K Adarsh Nag

Ernakulam, Kerala, India adarshnagk22@gmail.com 9207663636 in/adarsh-nag-7b048416b

SUMMARY

Experienced Full-Stack Developer with hands-on expertise in PHP, React.js, Python, and Drupal, specializing in SaaS solutions, HSE AI, and IoT-based applications. Skilled in both frontend and backend development, with strong command over unit testing (Cypress), database design and management, and DevOps practices such as Docker, CI/CD pipelines, and Git workflows.
Successfully collaborated with clients on-site, translating business requirements into scalable, high-performance software. Built and maintained internal WordPress websites and delivered freelance branding sites for two clients, handling full-cycle development including custom themes, responsive design, and SEO optimization.
Certified in PHP Full Stack Development and Google Cloud, with a proven track record of driving projects from idea to deployment, delivering secure, maintainable, and user-friendly solutions.

EXPERIENCE

Software Developer

GI Corporations **April 2025 - July 2026, Cochin**

- HRMS System: Developed using the Frappe framework, focusing on core HR functionalities such as employee onboarding, leave management, and attendance tracking.
- Procurement Management Platform: Built using Vue.js (frontend) and Django (backend) to manage vendor registration, purchase requisitions, and approval workflows.
- Other Web Projects: Utilized Next.js for building performant and SEO-friendly web interfaces.
- Implemented automated end-to-end testing using Cypress to ensure application stability and reliability across critical user flows.

Software Engineer

Enfin Technologies **December 2024 - April 2025, Technopark, Trivandrum**

- Worked in Python FastAPI for a SaaS based application and in various microservices
- Experience in Celery, RabbitMQ, etc.
- Experience in Azure and various Mail Services and Stripe Payment Gateway methods.

Software Engineer

PiServe, Safetywhat **February 2023 - November 2024, Infopark Phase 2, Kakkanad**

- Drupal v8 and v9 Full-Stack Developer: Developed and maintained scalable web solutions using Drupal. Handled both frontend and backend development.and also developed HSE-based projects, maintained frontend and backend with Drupal and SQL databases. Migrated projects between Drupal versions and implemented translation functionality.
- FullStack Developer (React JS, Python): Enhanced user experiences with React JS, integrated APIs from a Python v3 framework, and conducted user interface testing, backend systems using Django and Flask, managed databases, developed APIs using REST, GraphQL, and optimized performance.
- WordPress Developer: Developed and maintained internal websites using WordPress, customized themes and plugins, and ensured responsive, SEO-friendly, and user-friendly interfaces for internal communication and documentation platforms.
- Developer - Unit Testing (Cypress) & CI/CD: Researched and developed a unit testing platform with Cypress, implemented CI/CD pipelines in Git, utilized Docker, and optimized testing processes.
- IoT Developer - Python Implementation: Implemented IoT solutions using Python, developed firmware, established communication protocols MQTT/RabbitMQ/Kafka , and collaborated on IoT architectures.

PROJECT

Course-Based Institution Website Creation

Scope India

- Developed a website using frontend as JavaScript, HTML 5, CSS, and Bootstrap.
- Backend as PHP v8 using Laravel framework.
- Database as MySQL on Apache Server.
- Recreated the same site in WordPress (Elementor) and designed features for user experience.

Prediction of Online Sales using Machine Learning

College

- Developed a machine learning model to predict sales.
- Required datasets retrieved from Kaggle (https://www.kaggle.com/).
- Using Python v3, HTML5, CSS, and JavaScript. Used Spyder v5 for development and integration.

EDUCATION

Bachelor of Technology Computer Science Engineering

Kerala Technical University · Cochin · 2022

CERTIFICATIONS

AWS S3 Basics

Coursera · 2025

Business Analysis and Project Management

Coursera · 2025

WordPress course
Coursera • 2025

Create your e-commerce store with Shopify course
Coursera • 2025

Google Cloud Skills Program
Hosted by Qwiklabs • 2022
• Obtained 45 badges in various Google Cloud topics including ML, BigQuery, IoT, and Kubernetes.

Digital Marketing Internship
Ananzi Infotech • 2022
• Gained experience in digital marketing strategies including SEO, social media, and content creation.

COURSEWORK

PHP Full Stack Developer Certification
Scope India • 2023 • PHP - Laravel, MySQL, HTML, CSS, JS & Wordpress

SKILLS
